

## PRECIOUS MEMORIES PRODUCTIONS

### A GUIDE TO YOUR Videography Pricing

Our videography pricing will be based on your unique requirements that we should discuss with you prior to making an offer. Our base offer for **R 5200** is for the filming of the complete wedding ceremony only – highlighted in yellow below – and is irrespective of the length of the ceremony.

Video editing styles:

We offer two types of editing styles. The documentary style is perfect for those that wish to include every detail of their wedding day and will result in a presentation of two 90 minute DVDs being delivered. The negative aspect of this style is that despite the fact that there will be chapters on both DVDs it can lead to being perceived as boring to watch by those not intimately involved with you as a couple.

We also offer a cinematic style that still includes every facet of your wedding but that only includes the most important highlights of your wedding day. In this instance only one 90 minute DVD will be issued but will result in a faster moving pace and results in a movie that will have a broader appeal with all and sundry. The pre wedding shoot described below is a strong recommendation for this style.

The following chapters relating to your film should be considered:

- Growing up years and dating years:

This would be an introductory chapter as a professional slide show utilizing a maximum of 50 of your existing photographs for each of the couple that provides a foundation for your film and precious memories for your future children.

- Pre-wedding shoots:

You may select this option without video inclusion becoming a splendid extra that further enhances your film. From these photos we will include a professional slide show that will seamlessly be added to the final production.

Highly recommended for CINEMATOGRAPHY style selection

This is an option that will add background context to your film and comprises both a mix of video and slide show of your pre-wedding days [six to eight weeks before your wedding day] and could include video footage of the things you like to do together. This option is for those who have planned their wedding day well before the time. It will include footage and photos taken on 3 separate days lasting up to 2 to 4 hours each day. We would plan, for instance, a parent's interview about yourselves as well as appropriate filming of you as a couple, dining, walking together, shopping etc...

- Chapel / Church / Garden and venue preparations on the wedding day
- Bride and bride's maid preparations on the wedding day
- Groom and groomsmen preparations on the wedding day
- Complete wedding ceremony
- Guest entertainment footage
- Wedding celebrations with all formalities up to 10PM or midnight
- Dinner footage
- Guest messages for the couple

#### **SPECIAL DISCOUNTS AND ATTRACTIONS IF BOTH OUR SERVICES ARE SELECTED**

1. If both our videography and photography services are selected we offer to discount both services by 15%
2. If both our videography and photography services are selected we will include up to 100 photos and, if you have them available – some video footage of your honeymoon, on a separately produced and professionally designed video slide show to be delivered to you afterwards as a complimentary gift from Precious Memories Productions.

#### **OTHER CONSIDERATIONS**

If the bridal group and groom preparations are situated at locations further than 1 kilometre apart this will have an impact on costs.

All our pricing includes travel costs. However be aware that the total costs will be will be adjusted for venues located further than 50 kilometres from Midrand.

#### **FREE STUFF**

A 3 to 4 minute highlight clip on YouTube of your wedding day. Please be aware that copyright laws often result in limitations for sound track selections.

**MEMORIES FORM THE FABRIC OF OUR LIVES**
